Marilyn Anderson is an author, speaker, and award-winning film and television writer. She wrote for *Murphy Brown*, *FAME*, *Friday the 13th - the Series*, and *Carol & Company*, starring Carol Burnett, Richard Kind and Jeremy Piven. As a travel & entertainment reporter, Marilyn covered hotels and attractions worldwide. Although not a millionaire (yet), she has lived like one for over 20 years, and is now revealing her secrets so that her readers can, too.

Let me start out by stating that I'm a skeptic. Over the years I've read quite a few "get rich" books. I'm not embarrassed to say that I like the idea of making money. And as much as I like making money, I think I like saving money even more. I was surfing books on wealth and money on and came across this one. My initial reaction was to roll my eyes and discount it as B.S. However, I kept coming back to it (I liked the cover, duh!) and eventually my resolve faltered and I ordered a copy and honestly, I'm glad I did. The author, Marilyn, actually made good common sense and offered genuine advice and suggestions that I thought were valuable and, more importantly, workable, even for a skeptic like me. Even though a lot of the suggestions are written

with women in mind, I found that they easily worked just as effectively for men - I actually saved money! Also, I was entertained by the author's writing style. It was crisp, entertaining and humorous. The truth is, this book has already paid for itself (tickets to a show). I commend the author for her good advice and thank her for helping me save some of my greenbacks and to broaden my horizons in the process. I do recommend this book for yourself or as a gift for a friend.

This is a fun lively, but more importantly, informative and practical book that can save everyone a lot of \$\$\$! I was amazed at all of the ways that there are to do things for free or save a lot of money, even in a pricey city like Los Angeles. I was particularly intrigued with the free vacation to Spain! Your accountant will kiss you for all the money you could save by doing just a few of Ms. Anderson's tips. College graduates can use it to find ways to live economically as they get started in their careers. Young parents can use it, because they have to find new ways to make their dollars stretch. Singles can use it to look and live better, without it costing a fortune. People approaching retirement need it, because living on a fixed income requires creative ways to get more bang for that fixed income buck. As you can tell, I am very impressed with this little gem. You'll pay for the cost of the book by using just one tip!

I consider myself a guy who can find a decent bargain, but Marilyn Anderson's book had some seriously good information I hadn't come across before. For that alone, well worth the price. But she also throws in a lot of funny, sometimes juicy anecdotes from her own life. So it's useful AND entertaining. (I got the Kindle edition, BTW.) Some chapters may not interest you but some of them will have you writing stuff down for future reference. In other words, there will be stuff in here that made you glad you got the book. She did good work-- both in the research and the writing.

Laugh while you save money! Marilyn provides an informative and entertaining guidebook on how to spice up your free-time without spending a fortune. The first chapter alone showed me how to see Hamilton without spending \$600 for a ticket. (\$10 anyone? Believe it! Read the book and find out how.) One thing aggravated me, however -- I bought season tickets to the Dorothy Chandler for years to see top plays in LA. If I had the wisdom of Marilyn, I would have saved a fortune!! At the very least, one tip will recoup your expenditure. Perhaps, if you banked the money you would have spent but don't after using her tip, those savings could turn into a million bucks....

This book is a wow! It has so much information in it, yet it's fun to read, too. In that way, it's very different from other "resources" books that inform but don't entertain. This one is amusing to read while you learn all kinds of ways to save money. It also tells stories from the author that are a hoot. I don't know if I'm as outgoing as the author, but there are many things in the book that I will be trying in the future thanks to her advice. I can't wait to go to New York and see shows using her tips. Meanwhile, I'll be checking out the places online and off that are recommended. It's a great way to give a boost to your life and your wallet!

A very unique and entertaining book. Not only is it very useful, it's also quite funny. Part memoir, bigger part great consumer information. This is the kind of book you can keep referring to time and time again. I may not be a millionaire (yet), but if I was I would still read this book.

This book had me laughing on page one, where Marilyn tells about an acquaintance who, on his deathbed, continued to wonder how Marilyn supported herself. And she does support herself grandly! I especially liked the chapters on going to Broadway plays (for less); travelling (for less); and eating well (for less). And all this stuff is legal! I'm giving this book as birthday gifts to my friends, because, yes, it's the gift that goes on giving.

The author, Marilyn Anderson, came up with a wonderful concept especially during these times for a unique book that is very much in need and what she's written has that rare balance of being chock full of information plus it's entertaining to read! The book offers a plethora of money-saving tips and it's written in an informal, and often humorous, style.
