Customer Reviews

The Echo is easy to set up and use and I was fine without the book. However I love the Echo so much that I bought several as Christmas presents and just knew that my tech challenged parents would be calling me every 2 minutes asking for help. I would than become frustrated by their questions and the Echo would sit unused. So I bought the Master Your Echo book and gave with the actual Echo. Explained to my parents that I would not be helping them and to read the book. Guess what the book was a simple instructional aid and both parents love the Echo and now know

more than I do on different apps and features. If you are a tech challenged person or would like further details on what your Echo can do this is a great book. I look at it this way if you get a smart phone and can figure out the apps and functions on your own skip the book but if you get a smart phone and curse it for being too complicated then you will get a lot of use out of the book. highly recommended

Â Echo Show: A Guide On Everything You Need To Know About The Echo Show

The book is about Echo Show .This guide will give you insight on the Echo Show and all of its features plus more.I have learned Pro and Cons Between the Echo Show and Echo Dot.This book really taught me everything about Echo Show.I recommend to read this book to any aspiring or new users of echo.

This book really taught me everything about Echo Show. So useful and it is very helpful.This product is very suitable for me, simple design and reasonable price, the product is very good.

This book is very amusing.It has taught me everything about Echo Show.This book is very good and informative.I recommend it.

This book is really good and informative . Simply super . Highly recommended . Boost to buy it .

Echo is a decent product, but it still requires perfections, as the sound value is under the average for me.The music feature is nice but again, I have to go to the app to see choices and do more robust lists. Between the Echo Show and Echo dot, This guide will give you insight on the Echo Show and all of it's of its features plus more.I am very glad to read this book. Echo was before I read this book.

I have to go to the app to see choices and do more robust lists. I think it has a future but it is still developing,Highly recommend.
